Grand River Dam Authority; Notice of Availability of Final Environmental Assessment

July 25, 1997.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47910), the Office of Hydropower Licensing (OHL) has prepared a final environmental assessment (FEA) for an application for approval of a marina expansion. Grand River Dam Authority proposes to permit Mr. Terry Frost, d/b/a Cherokee Yacht Club, to expand an existing marina on Grand Lake's Duck Creek. Cherokee Yacht Club requests permission to add two covered docks containing 53 boat slips to an existing marina consisting of 134 slips and 2 gas docks. The proposal would bring the total number of slips to 187. In the FEA, staff concludes that approval of the licensee's proposal would not constitute a major Federal action significantly affecting the quality of the human environment. The Pensacola Project is on the Grand River, in Craig, Delaware, Mayes, and Ottawa counties, Oklahoma.

The FEA was written by staff in the Office of Hydropower Licensing, Federal Energy Regulatory Commission. Copies of the EA are available for review at the Commission's Reference and Information Center, Room 2-A, 888 First Street, NE, Washington, DC 20426. Additional informational can be obtained by calling the project manager, John Estep, at (202) 219-2654.
